

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended August 31, 2015

Commission file number 0-11330

PAYCHEX, INC.

911 Panorama Trail South
Rochester, New York 14625-2396
(585) 385-6666

A Delaware Corporation

IRS Employer Identification Number: 16-1124166

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

Common Stock, \$0.01 Par Value

PAYCHEX, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
August 31, 2015

Note A: Description of Business, Basis of Presentation, and Significant Accounting Policies

Description of business: Paychex, Inc. and its wholly owned subsidiaries (collectively, the “Company” or “Paychex”) is a leading provider of integrated human capital management solutions for payroll, human resource, retirement, and insurance services for small- to medium-sized businesses in the United States (“U.S.”). The Company also has operations in Germany.

Paychex, a Delaware corporation formed in 1979, reports as one segment. Substantially all of the Company’s revenue is generated within the U.S. The Company also generates revenue within Germany, which represented less than one percent of the Company’s total revenue for the three months ended August 31, 2015 and 2014. Long-lived assets in Germany are insignificant in relation to total long-lived assets of the Company as of August 31, 2015 and May 31, 2015. In addition, the Company has an equity method investment for a joint-venture in Brazil and a minority investment in a Canadian entity, neither of which is significant.

Basis of presentation: The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statement presentation. The consolidated financial statements include the consolidated accounts of the Company with all intercompany transactions eliminated. In the opinion of management, the information furnished herein reflects all adjustments (consisting of items of a normal recurring nature), which are necessary for a fair presentation of the results for the interim period. These financial statements should be read in conjunction with the Company’s consolidated financial statements and related Notes to Consolidated Financial Statements presented in the Company’s Annual Report on Form 10-K (“Form 10-K”) as of and for the year ended May 31, 2015 (“fiscal 2015”). Operating results and cash flows for the three months ended August 31, 2015 are not necessarily indicative of the results that may be expected for other interim periods or the full fiscal year ending May 31, 2016 (“fiscal 2016”). The Company has evaluated subsequent events for potential recognition and/or disclosure through the date of issuance of these financial statements.

PEO insurance reserves: As part of the professional employer organization (“PEO”), the Company offers workers’ compensation insurance and health insurance to client companies for the benefit of client employees. For workers’ compensation insurance, reserves are established to provide for the estimated costs of paying claims underwritten by the Company. The Company’s maximum individual claims liability is \$1.3 million and \$1.0 million under its fiscal 2016 and fiscal 2015 policies, respectively.

Under the minimum premium plan health insurance offering within the PEO, the Company’s health benefits insurance reserves are established to provide for the payment of claims liability charges in accordance with its service contract with the carrier. The Company’s maximum individual claims liability is \$0.3 million under both its calendar 2015 and 2014 policies.

Estimating the ultimate cost of future claims is an uncertain and complex process based upon historical loss experience and actuarial loss projections, and is subject to change due to multiple factors, including economic trends, changes in legal liability law, and damage awards, all of which could materially impact the reserves as reported in the consolidated financial statements. Accordingly, final claim settlements may vary from the present estimates, particularly with workers’ compensation insurance where those payments may not occur until well into the future. The Company regularly reviews the adequacy of its estimated insurance reserves. Adjustments to previously established reserves are reflected in the results of operations for the period in which the adjustment is identified. Such adjustments could be significant, reflecting any combination of new and adverse or favorable trends.

Stock-based compensation costs: The Company has issued stock-based awards to employees and directors consisting of stock options, restricted stock awards, restricted stock units, performance shares, and performance stock options. The Company accounts for all stock-based awards to employees and directors as compensation costs in the consolidated financial statements based on the fair value measured as of the date of grant. These costs are recognized over the requisite service period. Stock-based compensation costs recognized were \$8.8 million for the three months ended August 31, 2015 as compared with \$7.5 million for the three months ended August 31, 2014. The methods and assumptions used in the determination of the fair value of stock-based awards are consistent with those described in the Company’s fiscal 2015 Form 10-K.

Recently adopted accounting pronouncements: There were no recently adopted accounting pronouncements during the three months ended August 31, 2015.

Note A: Description of Business, Basis of Presentation, and Significant Accounting Policies —continued

Recently issued accounting pronouncements: In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-12 “Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Consensuses of the Emerging Issues Task Force.” ASU No. 2015-12 designates contract value as the only required measure for fully benefit-responsive investment contracts; simplifies and makes more effective the investment disclosure requirements under Accounting Standards Codification (“ASC”) topic 820 for fair value, and topics 960, 962 and 965 for employee benefit plans; and provides a similar measurement date practical expedient for employee benefit plans. ASU No. 2015-12 is effective for fiscal years beginning after December 15, 2015, and is applicable to the Company’s financial reporting for its defined contribution employee benefit plans as of January 1, 2016. This guidance will not have a material impact on the Company’s consolidated financial statements.

Other recent authoritative guidance issued by the FASB (including technical corrections to the ASC, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission) did not, or are not expected to, have a material effect on the Company’s consolidated financial statements.

Note B: Basic and Diluted Earnings Per Share

Basic and diluted earnings per share were calculated as follows:

<u>In millions, except per share amounts</u>	For the three months ended August 31,	
	2015	2014
Basic earnings per share:		
Net income	\$ 209.1	\$ 171.3
Weighted-average common shares outstanding	361.1	363.1
Basic earnings per share	\$ 0.58	\$ 0.47
Diluted earnings per share:		
Net income	\$ 209.1	\$ 171.3
Weighted-average common shares outstanding	361.1	363.1
Dilutive effect of common share equivalents	1.7	1.6
Weighted-average common shares outstanding, assuming dilution	362.8	364.7
Diluted earnings per share	\$ 0.58	\$ 0.47
Weighted-average anti-dilutive common share equivalents	0.5	0.5

Weighted-average common share equivalents that have an anti-dilutive impact are excluded from the computation of diluted earnings per share.

For both the three months ended August 31, 2015 and 2014, 0.7 million shares of the Company’s common stock were issued in connection with the exercise or vesting of stock-based awards.

In May 2014, the Board of Directors approved a program to repurchase up to \$350 million of the Company’s common stock, with authorization expiring on May 31, 2017. During the three months ended August 31, 2015, the Company repurchased 1.3 million shares for \$62.9 million. During the three months ended August 31, 2014, the Company repurchased 0.9 million shares for \$37.5 million. Shares repurchased were retired.

Note C: Investment Income, Net

Investment income, net, consisted of the following items:

<u>In millions</u>	For the three months ended August 31,	
	2015	2014
Interest income on corporate funds	\$ 1.9	\$ 1.9
Interest expense	(0.2)	(0.3)
Net loss from equity-method investments	(0.3)	(0.2)
Investment income, net	\$ 1.4	\$ 1.4

Note D: Funds Held for Clients and Corporate Investments

Funds held for clients and corporate investments consisted of the following:

<u>In millions</u>	August 31, 2015			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
Type of issue:				
Funds held for clients money market securities and other cash equivalents	\$ 1,329.4	\$ —	\$ —	\$ 1,329.4
Available-for-sale securities:				
Corporate bonds	65.0	0.1	(0.3)	64.8
General obligation municipal bonds	1,708.7	16.7	(1.9)	1,723.5
Pre-refunded municipal bonds ⁽¹⁾	94.7	1.6	—	96.3
Revenue municipal bonds	950.4	8.3	(1.1)	957.6
U.S. government agency securities	37.0	0.1	—	37.1
Variable rate demand notes	23.0	—	—	23.0
Total available-for-sale securities	2,878.8	26.8	(3.3)	2,902.3
Other	13.8	1.0	(0.1)	14.7
Total funds held for clients and corporate investments	\$ 4,222.0	\$ 27.8	\$ (3.4)	\$ 4,246.4

<u>In millions</u>	May 31, 2015			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
Type of issue:				
Funds held for clients money market securities and other cash equivalents	\$ 1,430.0	\$ —	\$ —	\$ 1,430.0
Available-for-sale securities:				
General obligation municipal bonds	1,694.0	14.0	(4.3)	1,703.7
Pre-refunded municipal bonds ⁽¹⁾	101.7	1.0	—	102.7
Revenue municipal bonds	960.7	6.1	(3.2)	963.6
Variable rate demand notes	825.6	—	—	825.6
Total available-for-sale securities	3,582.0	21.1	(7.5)	3,595.6
Other	12.7	1.5	—	14.2
Total funds held for clients and corporate investments	\$ 5,024.7	\$ 22.6	\$ (7.5)	\$ 5,039.8

⁽¹⁾ Pre-refunded municipal bonds are secured by an escrow fund of U.S. government obligations.

Included in money market securities and other cash equivalents as of August 31, 2015 and May 31, 2015 were bank demand deposit accounts, commercial paper, short-term municipal bonds, and money market securities.

Note D: Funds Held for Clients and Corporate Investments — continued

Classification of investments on the Consolidated Balance Sheets is as follows:

<u>In millions</u>	<u>August 31, 2015</u>	<u>May 31, 2015</u>
Funds held for clients	\$ 3,748.4	\$ 4,273.4
Corporate investments	81.8	366.6
Long-term corporate investments	416.2	399.8
Total funds held for clients and corporate investments	<u>\$ 4,246.4</u>	<u>\$ 5,039.8</u>

The Company's available-for-sale securities reflected a net unrealized gain of \$23.5 million as of August 31, 2015 compared with a net unrealized gain of \$13.6 million as of May 31, 2015. Included in the net unrealized gain as of August 31, 2015 and May 31, 2015 there were 196 and 280 available-for-sale securities in an unrealized loss position, respectively. The securities in an unrealized loss position were as follows:

<u>In millions</u>	<u>August 31, 2015</u>					
	<u>Securities in an unrealized loss position for less than twelve months</u>		<u>Securities in an unrealized loss position for more than twelve months</u>		<u>Total</u>	
	<u>Gross unrealized losses</u>	<u>Fair value</u>	<u>Gross unrealized losses</u>	<u>Fair value</u>	<u>Gross unrealized losses</u>	<u>Fair value</u>
Type of issue:						
Corporate bonds	\$ (0.3)	\$ 42.3	\$ —	\$ —	\$ (0.3)	\$ 42.3
General obligation municipal bonds	(1.5)	298.9	(0.4)	29.1	(1.9)	328.0
Revenue municipal bonds	(1.1)	183.2	—	1.5	(1.1)	184.7
Total	<u>\$ (2.9)</u>	<u>\$ 524.4</u>	<u>\$ (0.4)</u>	<u>\$ 30.6</u>	<u>\$ (3.3)</u>	<u>\$ 555.0</u>

<u>In millions</u>	<u>May 31, 2015</u>					
	<u>Securities in an unrealized loss position for less than twelve months</u>		<u>Securities in an unrealized loss position for more than twelve months</u>		<u>Total</u>	
	<u>Gross unrealized losses</u>	<u>Fair value</u>	<u>Gross unrealized losses</u>	<u>Fair value</u>	<u>Gross unrealized losses</u>	<u>Fair value</u>
Type of issue:						
General obligation municipal bonds	\$ (3.8)	\$ 535.1	\$ (0.5)	\$ 26.3	\$ (4.3)	\$ 561.4
Revenue municipal bonds	(3.2)	361.6	—	—	(3.2)	361.6
Total	<u>\$ (7.0)</u>	<u>\$ 896.7</u>	<u>\$ (0.5)</u>	<u>\$ 26.3</u>	<u>\$ (7.5)</u>	<u>\$ 923.0</u>

The Company regularly reviews its investment portfolios to determine if any investment is other-than-temporarily impaired due to changes in credit risk or other potential valuation concerns. The Company believes that the investments it held as of August 31, 2015, that had unrealized losses totaling \$3.3 million, were not other-than-temporarily impaired. The Company believes that it is probable that the principal and interest will be collected in accordance with the contractual terms, and that the unrealized losses on these securities were due to changes in interest rates, and were not due to increased credit risk or other valuation concerns. A substantial portion of the securities in an unrealized loss position as of August 31, 2015 and May 31, 2015 held an A rating or better. The Company does not intend to sell these investments until the recovery of their amortized cost basis or maturity, and further believes that it is not more-likely-than-not that it will be required to sell these investments prior to that time. The Company's assessment that an investment is not other-than-temporarily impaired could change in the future due to new developments or changes in the Company's strategies or assumptions related to any particular investment.

Realized gains and losses on the sales of securities are determined by specific identification of the amortized cost basis of each security. On the Consolidated Statements of Income and Comprehensive Income, realized gains and losses from funds held for clients are included in interest on funds held for clients and realized gains and losses from corporate investments are included in investment income, net. Realized gains were insignificant for the three months ended August 31, 2015 and 2014. There were no realized losses recognized in any of the respective periods.

Note D: Funds Held for Clients and Corporate Investments — continued

The amortized cost and fair value of available-for-sale securities that had stated maturities as of August 31, 2015 are shown below by contractual maturity. Expected maturities can differ from contractual maturities because borrowers may have the right to prepay obligations without prepayment penalties.

<u>In millions</u>	August 31, 2015	
	Amortized cost	Fair value
Maturity date:		
Due in one year or less	\$ 369.7	\$ 372.5
Due after one year through three years	697.9	705.8
Due after three years through five years	851.3	858.7
Due after five years	959.9	965.3
Total	<u>\$ 2,878.8</u>	<u>\$ 2,902.3</u>

Variable rate demand notes are primarily categorized as due after five years in the table above, as the contractual maturities on these securities are typically 20 to 30 years. Although these securities are issued as long-term securities, they are priced and traded as short-term instruments because of the liquidity provided through the tender feature.

Note E: Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset, or paid to transfer a liability (an exit price), in an orderly transaction between market participants at the measurement date. The accounting standards related to fair value measurements include a hierarchy for information and valuations used in measuring fair value that is broken down into three levels based on reliability, as follows:

- Level 1 valuations are based on quoted prices in active markets for identical instruments that the Company can access at the measurement date.
- Level 2 valuations are based on inputs other than quoted prices included in Level 1 that are observable for the instrument, either directly or indirectly, for substantially the full term of the asset or liability including the following:
 - quoted prices for similar, but not identical, instruments in active markets;
 - quoted prices for identical or similar instruments in markets that are not active;
 - inputs other than quoted prices that are observable for the instrument; or
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 valuations are based on information that is unobservable and significant to the overall fair value measurement.

The carrying values of cash and cash equivalents, accounts receivable, net of allowance for doubtful accounts, and accounts payable approximate fair value due to the short-term maturities of these instruments. Marketable securities included in funds held for clients and corporate investments consist primarily of securities classified as available-for-sale and are recorded at fair value on a recurring basis.

Note E: Fair Value Measurements — continued

The Company's financial assets and liabilities measured at fair value on a recurring basis were as follows:

		August 31, 2015			
<u>In millions</u>	Carrying value (Fair value)	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
Assets:

Other	\$ 14.2	\$ 14.2	\$ —	\$ —	
Liabilities:					
Other long-term liabilities	\$ 14.2	\$ 14.2	\$ —	\$ —	

Note E: Fair Value Measurements — continued

In determining the fair value of its assets and liabilities, the Company predominately uses the market approach. Money market securities, which are cash equivalents, are valued based on quoted market prices in active markets. Commercial paper is included in Level 2 because it may not trade on a daily basis. Available-for-sale securities and short-term municipal bonds with a maturity of less than 90 days included in Level 2 are valued utilizing inputs obtained from an independent pricing service. To determine the fair value of the Company's Level 2 available-for-sale investments, a variety of inputs are utilized, including benchmark yields, reported trades, non-binding broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, new issue data, and monthly payment information. The Company has not adjusted the prices obtained from the independent pricing service because it believes that they are appropriately valued.

Assets included as other are mutual fund investments, consisting of participants' eligible deferral contributions under the Company's non-qualified and unfunded deferred compensation plans. The related liability is reported as other long-term liabilities. The mutual funds are valued based on quoted market prices in active markets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note F: Property and Equipment, Net of Accumulated Depreciation

The components of property and equipment, at cost, consisted of the following:

<u>In millions</u>	<u>August 31, 2015</u>	<u>May 31, 2015</u>
Land and improvements	\$ 8.3	\$ 8.3
Buildings and improvements	102.4	102.1
Data processing equipment	191.4	190.9
Software	402.3	391.8
Furniture, fixtures, and equipment	140.1	145.6
Leasehold improvements	108.7	106.2
Construction in progress	27.0	28.5
Total property and equipment, gross	980.2	973.4
Less: Accumulated depreciation	630.1	619.5
Property and equipment, net of accumulated depreciation	<u>\$ 350.1</u>	<u>\$ 353.9</u>

Depreciation expense was \$24.0 million for the three months ended August 31, 2015, compared to \$22.7 million for the three months ended August 31, 2014.

Note G: Goodwill and Intangible Assets, Net of Accumulated Amortization

The Company had goodwill balances on its Consolidated Balance Sheets of \$561.5 million as of both August 31, 2015 and May 31, 2015.

The Company has certain intangible assets with finite lives. The components of intangible assets, at cost, consisted of the following:

<u>In millions</u>	<u>August 31, 2015</u>	<u>May 31, 2015</u>
Client lists	\$ 247.9	\$ 244.6
Other intangible assets	3.2	3.2
Total intangible assets, gross	251.1	247.8
Less: Accumulated amortization	218.1	215.4
Intangible assets, net of accumulated amortization	<u>\$ 33.0</u>	<u>\$ 32.4</u>

Amortization expense relating to intangible assets was \$3.0 million for the three months ended August 31, 2015, compared with \$3.8 million for the three months ended August 31, 2014.

Note G: Goodwill and Intangible Assets, Net of Accumulated Amortization -- continued

As of August 31, 2015, the estimated amortization expense relating to intangible asset balances for the full year fiscal2016 and the following four fiscal years is as follows:

In millions Fiscal year ending May 31,	Estimated amortization expense
2016	\$ 12.0
2017	\$ 8.9
2018	\$ 6.1
2019	\$ 4.1
2020	\$ 2.4

Note H: Accumulated Other Comprehensive Income

The change in unrealized gains and losses, net of applicable taxes, related to available-for-sale securities is the primary component reported in accumulated other comprehensive income in the Consolidated Balance Sheets.

The changes in accumulated other comprehensive income are as follows:

In millions	For the three months ended August 31,	
	2015	2014
Beginning balance	\$ 7.5	\$ 21.5
Other comprehensive income:		
Unrealized gains on available-for-sale securities, net of tax	6.3	4.6
Reclassification adjustment for the net gain on sale of available-for-sale securities realized in net income, net of tax	—	(0.1)
Total other comprehensive income, net of tax	6.3	4.5
Ending balance	\$ 13.8	\$ 26.0
Total tax expense included in other comprehensive income	\$ 3.6	\$ 2.1

Reclassification adjustments out of accumulated other comprehensive income are for realized gains on the sales of available-for-sale securities. For the three months ended August 31, 2015 and 2014, these reclassification adjustments impacted interest on funds held for clients on the Consolidated Statements of Income and Comprehensive Income.

Note I: Commitments and Contingencies

Lines of credit: As of August 31, 2015, the Company had unused borrowing capacity available under four uncommitted, secured, short-term lines of credit at market rates of interest with financial institutions as follows:

Financial institution	Amount available	Expiration date
JP Morgan Chase Bank, N.A.	\$350 million	February 28, 2016
Bank of America, N.A.	\$250 million	February 28, 2016
PNC Bank, National Association	\$150 million	February 28, 2016
Wells Fargo Bank, National Association	\$150 million	February 28, 2016

The primary uses of these lines of credit would be to meet short-term funding requirements related to deposit account overdrafts and client fund obligations arising from electronic payment transactions on behalf of clients in the ordinary course of business, if necessary. No amounts were outstanding under these lines of credit as of, or during the three months ended August 31, 2015.

Certain of the financial institutions are also parties to the Company's credit facility and irrevocable standby letters of credit, which are discussed next.

Note I: Commitments and Contingencies – continued

Credit facility: On August 5, 2015, the Company entered into a committed, unsecured, five-year syndicated credit facility, expiring on August 5, 2020. Under the credit facility, Paychex of New York LLC (the “Borrower”) may, subject to certain restrictions, borrow up to \$1.0 billion to meet short-term funding requirements. The obligations under this facility have been guaranteed by the Company and certain of its subsidiaries. The outstanding obligations under this credit facility will bear interest at competitive rates based on options provided to the Borrower. Upon expiration of the commitment in August 2020, any borrowings outstanding will mature and be payable on such date. This agreement supersedes the \$750 million credit facility agreement set to expire on June 21, 2018, which was terminated as part of the new agreement.

There were no amounts outstanding under this credit facility as of August 31, 2015. During the three months ended August 31, 2015, the Company borrowed against this facility, for one day, as follows:

<u>\$ in millions</u> <u>Fiscal quarter</u>	<u>Amount borrowed</u>	<u>Interest rate</u>
First quarter	\$ 200.0	3.25%

Certain lenders under this credit facility, and their respective affiliates, have performed, and may in the future perform for the Company and its subsidiaries, various commercial banking, investment banking, underwriting, and other financial advisory services, for which they have received, and will continue to receive in the future, customary fees and expenses.

Letters of credit: As of both August 31, 2015 and May 31, 2015, the Company had irrevocable standby letters of credit available totaling \$43.0 million required to secure commitments for certain insurance policies. The letters of credit expire at various dates between December 2015 and July 2016. Upon draw down of funds, the letters of credit become collateralized by securities held in the Company’s investment portfolios. No amounts were outstanding on these letters of credit as of, or during the three months ended August 31, 2015.

Other commitments: The Company enters into various purchase commitments with vendors in the ordinary course of business. The Company had outstanding commitments to purchase approximately \$11.5 million and \$9.5 million of capital assets as of August 31, 2015 and May 31, 2015, respectively.

In the normal course of business, the Company makes representations and warranties that guarantee the performance of services under service arrangements with clients. Historically, there have been no material losses related to such guarantees. In addition, the Company has entered into indemnification agreements with its officers and directors, which require it to defend and, if necessary, indemnify these individuals for certain pending or future legal claims as they relate to their services provided to the Company.

Paychex currently self-insures the deductible portion of various insured exposures under certain employee benefit plans. The Company’s estimated loss exposure under these insurance arrangements is recorded in other current liabilities on the Consolidated Balance Sheets. Historically, the amounts accrued have not been material and are not material as of August 31, 2015. The Company also maintains insurance coverage in addition to its purchased primary insurance policies for gap coverage for employment practices liability, errors and omissions, warranty liability, theft and embezzlement, cyber threats, and acts of terrorism, and capacity for deductibles and self-insured retentions through its captive insurance company.

Contingencies: The Company is subject to various claims and legal matters that arise in the normal course of its business. These include disputes or potential disputes related to breach of contract, tort, breach of fiduciary duty, employment-related claims, tax claims, and other matters.

The Company’s management currently believes that resolution of any outstanding legal matters will not have a material adverse effect on the Company’s financial position or results of operations. However, legal matters are subject to inherent uncertainties and there exists the possibility that the ultimate resolution of these matters could have a material adverse impact on the Company’s financial position and results of operations in the period in which any such effect is recorded.

Note J: Income Taxes

The Company’s effective income tax rate was 29.7% for the three months ended August 31, 2015 compared to 36.3% for the three months ended August 31, 2014. The decrease in the effective income tax rate related primarily to a net tax benefit that was recorded for income derived in prior tax years from customer-facing software the Company produced. During the three months ended August 31, 2015, the Company engaged tax specialists to assess the qualification of such software for the federal “Qualified Production Activities Deduction.” Based on this assessment, the Company concluded that certain of our software offerings qualified for this tax deduction in prior tax years and, therefore, recognized the tax benefits and related tax reserves as a discrete item during this period. Excluding this net tax benefit, the effective income tax rate would have been approximately 36.0% for the three months ended August 31, 2015. The difference between the 36.0% effective tax rate and the federal statutory rate of 35.0% is due

to state income taxes, net of federal benefit, partially offset by tax-exempt municipal bond interest, consistent with the disclosure in our fiscal 2015 Form 10-K.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Management’s Discussion and Analysis of Financial Condition and Results of Operations reviews the operating results of Paychex, Inc. and its wholly owned subsidiaries (“we,” “our,” or “us”) for the three months ended August 31, 2015 and August 31, 2014, and our financial condition as of August 31, 2015. The focus of this review is on the underlying business reasons for material changes and trends affecting our revenue, expenses, net income, and financial condition. This review should be read in conjunction with the August 31, 2015 consolidated financial statements and the related Notes to Consolidated Financial Statements contained in this Quarterly Report on Form 10-Q (“Form 10-Q”). This review should also be read in conjunction with our Annual Report on Form 10-K (“Form 10-K”) for the year ended May 31, 2015 (“fiscal 2015”). Forward-looking statements in this review are qualified by the cautionary statement included under the next sub-heading, “Cautionary Note Regarding Forward-Looking Statements Pursuant to the United States Private Securities Litigation Reform Act of 1995.”

Cautionary Note Regarding Forward-Looking Statements Pursuant to the United States Private Securities Litigation Reform Act Of 1995

Certain written and oral statements made by us may constitute “forward-looking statements” within the meaning of the safe harbor provisions of the United States (“U.S.”) Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by such words and phrases as “we expect,” “expected to,” “estimates,” “estimated,” “current outlook,” “we look forward to,” “would equate to,” “projects,” “projections,” “projected to be,” “anticipates,” “anticipated,” “we believe,” “could be,” and other similar phrases. Examples of forward-looking statements include, among others, statements we make regarding operating performance, events, or developments that we expect or anticipate will occur in the future, including statements relating to revenue growth, earnings, earnings-per-share growth, or similar projections.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations, and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy, and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks, and changes in circumstances that are difficult to predict, many of which are outside our control. Our actual results and financial conditions may differ materially from those indicated in the forward-looking statements. Therefore, you should not place undue reliance upon any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following:

- general market and economic conditions including, among others, changes in U.S. employment and wage levels, changes to new hiring trends, legislative changes to stimulate the economy, changes in short- and long-term interest rates, changes in the fair value and the credit rating of securities held by us, and accessibility of financing;
- changes in demand for our services and products, ability to develop and market new services and products effectively, pricing changes and the impact of competition;
- changes in the availability of skilled workers, in particular those supporting our technology and product development;
- changes in the laws regulating collection and payment of payroll taxes, professional employer organizations, and employee benefits, including retirement plans, workers’ compensation, health insurance (including health care reform legislation), state unemployment, and section 125 plans;
- changes in health insurance and workers’ compensation rates and underlying claims trends;
- changes in technology that adversely affect our products and services and impact our ability to provide timely enhancements to services and products;
- the possibility of a security breach that disrupts operations or exposes client confidential data;
- the possibility of failure of our operating facilities, computer systems, and communication systems during a catastrophic event;
- the possibility of third-party service providers failing to perform their functions;
- the possibility of a failure of internal controls or our inability to implement business processing improvements;

- the possibility that we may be subject to liability for violations of employment or discrimination laws by our clients and acts or omissions of client employees who may be deemed to be our agents, even if we do not participate in any such acts or violations; and
- potentially unfavorable outcomes related to pending legal matters.

Any of these factors, as well as such other factors as discussed in our other periodic filings with the Securities and Exchange Commission (“SEC”), could cause our actual results to differ materially from our anticipated results. The information provided in this document is based upon the facts and circumstances known at this time, and any forward-looking statement made by us in this document speaks only as of the date on which it is made. Except as required by law, we undertake no obligation to update these forward-looking statements after the date of filing this Form 10-Q to reflect events or circumstances after such date, or to reflect the occurrence of unanticipated events.

Business

We are a leading provider of integrated human capital management (“HCM”) solutions for payroll, human resource, retirement, and insurance services for small- to medium-sized businesses. Our business strategy focuses on flexible, convenient service; industry-leading integrated technology; solid sales execution; providing a comprehensive suite of value-added HCM services; continued product penetration; and engaging in strategic acquisitions. Success in our mission to be a leading provider of HCM services by being an essential partner with America’s businesses will lead to strong long-term performance.

We offer a comprehensive portfolio of HCM services and products that allow our clients to meet their diverse payroll and human resource needs. Our payroll services are the foundation of our service portfolio. We support the small-business market through our core payroll, utilizing our robust Paychex FlexSM processing platform, or our SurePayroll[®] products. Mid-market companies are serviced through our Paychex Flex Enterprise solution set, which offers an integrated suite of HCM solutions using a single platform and single employee record, or through our traditional mid-market platform. Clients using Paychex Flex Enterprise are offered a software-as-a-service (“SaaS”) solution that integrates payroll processing with human resource management, employee benefits administration, time and labor management, applicant tracking and onboarding solutions. Paychex Flex Enterprise allows our mid-market clients to choose the services and software they need to meet the complexity of the business and have them integrated through one HCM solution.

Our services and products are as follows:

Service	Description
Payroll Services:	
Payroll processing	Includes the calculation, preparation, and delivery of employee payroll checks; production of internal accounting records and management reports; preparation of federal, state, and local payroll tax returns; and collection and remittance of clients’ payroll obligations.
Payroll tax administration services	Provides accurate preparation and timely filing of quarterly and year-end tax returns, as well as the electronic transfer of funds to the applicable federal, state, and local tax or regulatory agencies.
Employee payment services	Provides the employer the option of paying their employees by direct deposit, payroll debit card, a check drawn on a Paychex, Inc. account (Readychex [®]), or a check drawn on the employer’s account and electronically signed by us.
Regulatory compliance services	Includes new-hire reporting and garnishment processing, which allow employers to comply with legal requirements and reduce the risk of penalties.

Service	Description
Human Resource Services:	
Paychex HR Services	Available through an administrative services organization (“ASO”) and a professional employer organization (“PEO”). Both options offer businesses a combined package that includes payroll, employer compliance, human resource and employee benefits administration, risk management outsourcing, and on-site availability of a professionally trained human resource representative, among other services. Our PEO differs from the ASO in that we serve as a co-employer of the clients’ employees, offer health care coverage to PEO client employees, and assume the risks and rewards of workers’ compensation insurance and certain health insurance offerings. Paychex HR Essentials is an ASO product that provides support to our clients telephonically or online to help manage employee-related topics.
Retirement services administration	Offers a variety of retirement plan options to clients, as well as recordkeeping services, which include plan implementation, ongoing compliance with government regulations, employee and employer reporting, participant and employer online access, electronic funds transfer, and other administrative services.
Insurance services	Our licensed insurance agency, Paychex Insurance Agency, Inc., provides insurance through a variety of carriers. Insurance offerings include property and casualty coverage, such as workers’ compensation; business-owner policies; commercial auto; and health and benefits coverage, including health, dental, vision, and life. Paychex also offers comprehensive solutions to help clients navigate health care reform.
Online HR administration services	Offers online human resource administration software products for employee benefits management and administration, expense reporting, applicant tracking, and time and attendance solutions.
Other human resource services and products	Includes section 125 plans, state unemployment insurance services, employee handbooks, management manuals, and personnel and required regulatory forms.
Accounting and Finance Services:	
Paychex Accounting Online sm	A cloud-based accounting service delivered through a partnership and investment in Kashoo, a leading provider of cloud accounting services.
Other accounting and finance services	Includes Paychex Payment Processing Services, payment distribution services, and the Small Business Loan Resource Center.

Overview

We believe the fiscal year ending May 31, 2016 (“fiscal 2016”) is off to a good start with positive results across our major product lines. Our financial results for the three months ended August 31, 2015 (the “first quarter” or the “three months”) reflected Payroll service revenue growth of 5%. We experienced continued strong demand for our human resource services, including double-digit growth in the number of client worksite employees served. In addition, sales execution was strong, with the team-selling approach producing solid growth in new annualized revenue sold.

Our financial results continue to be impacted by the interest rate environment, as interest rates available on high-quality instruments remain low. Our combined funds held for clients and corporate investment portfolios earned an average rate of return of 1.0% for both the first quarter and the same period last year.

We continue to focus on driving growth in the number of clients, revenue, and profits, while providing industry-leading service and technology solutions to our clients and their employees. We are investing in our business, particularly in areas related to product development and supporting technology while maintaining strong operating income, net of certain items, as a percent of service revenue for the first quarter.

We are focused on enhancing our leading-edge technology, through continued integration in our Paychex Flexsuite of services, which streamlines workforce management through innovative technology and flexible choice of service. We recently launched the new Paychex Flex Hiring module. Paychex Flex Hiring gives employers access to recruiting and employee screening, along with a robust onboarding module, through the Paychex Flex platform for a seamless flow of information and data access across the HCM spectrum. It provides management with an end-to-end view of employee information throughout the employee lifecycle, from pre-hire engagement to retirement.

We recently launched the Paychex Multicultural Business Development Ambassador Program. As part of this program, business owners will have access to the payroll, HR, and benefits expertise of Paychex and its employees, with multicultural ambassadors hosting educational seminars and workshops throughout the country. Beyond providing educational resources, the ambassadors are also taking an active role in their communities, building meaningful relationships with Hispanic-focused organizations and business groups.

Our full-service Paychex Employer Shared Responsibility (“ESR”) product continues to gain market acceptance. The Affordable Care Act (“ACA”) sets forth specific coverage and reporting requirements that employers must meet. Paychex ESR services help clients navigate the complexities of those requirements, avoid steep fines and penalties, and reduce ACA-related administrative work.

Highlights of the financial results for the first quarter as compared to the same period last year are as follows:

- Total service revenue increased 8% to \$712.2 million.
 - Payroll service revenue increased 5% to \$432.5 million.
 - Human Resource Services (“HRS”) revenue increased 15% to \$279.7 million.
- Interest on funds held for clients increased 6% to \$10.8 million.
- Total revenue increased 8% to \$723.0 million.
- Operating income increased 11% to \$296.1 million and operating income, net of certain items, increased 11% to \$285.3 million. Refer to the “Non-GAAP Financial Measure” section, which follows, for further information on this non-GAAP measure.
- Net income increased 22% to \$209.1 million and diluted earnings per share increased 23% to \$0.58 per share. Net income and diluted earnings per share were positively impacted by a net tax benefit on income from prior tax years, which resulted in an increase in diluted earnings per share of approximately \$0.06 for the first quarter. Excluding this net tax benefit, net income and diluted earnings per share would have increased 11%.

Non-GAAP Financial Measure

In addition to reporting operating income, a U.S. generally accepted accounting principle (“GAAP”) measure, we present operating income, net of certain items, which is a non-GAAP measure. We believe operating income, net of certain items, is an appropriate additional measure, as it is an indicator of our core business operations performance period over period. It is also the basis of the measure used internally for establishing the following year’s targets and measuring management’s performance in connection with certain performance-based compensation payments and awards. Operating income, net of certain items, excludes interest on funds held for clients. Interest on funds held for clients is an adjustment to operating income due to the volatility of interest rates that are not within the control of management. Operating income, net of certain items, is not calculated through the application of GAAP and is not the required form of disclosure by the SEC. As such, it should not be considered as a substitute for the GAAP measure of operating income and, therefore, should not be used in isolation, but in conjunction with the GAAP measure. The use of any non-GAAP measure may produce results that vary from the GAAP measure and may not be comparable to a similarly defined non-GAAP measure used by other companies. Refer to the reconciliation of operating income to operating income, net of certain items, in the “Results of Operations – Operating Income” section of this Form 10-Q.

Financial Position and Liquidity

Our financial position as of August 31, 2015, remained strong with cash and total corporate investments of \$953.9 million and no debt. Our investment strategy focuses on protecting principal and optimizing liquidity. Yields on high credit quality financial instruments remain low, negatively impacting our income earned on funds held for clients and corporate investments. We invest predominately in municipal bonds – general obligation bonds; pre-refunded bonds, which are secured by a U.S. government escrow; and essential services revenue bonds – along with U.S. government agency securities and corporate bonds. During the first quarter, our primary short-term investment vehicles were bank demand deposit accounts, high-quality commercial paper, and variable rate demand notes (“VRDN”s).

A substantial portion of our portfolio is invested in high credit quality securities with ratings of AA or higher, and A-1/P-1 ratings on short-term securities. We limit the amounts that can be invested in any single issuer and invest in short- to intermediate-term instruments whose fair values are less sensitive to interest rate changes. We believe that our investments as of August 31, 2015 were not other-than-temporarily impaired, nor has any event occurred subsequent to that date that would indicate any other-than-temporary impairment.

Our primary source of cash is generated from our ongoing operations. Cash flow from operations was \$278.3 million for the three months. Historically, we have funded our operations, capital purchases, business acquisitions, share repurchases, and dividend payments from our operating activities. Our positive cash flows have allowed us to support our business and to pay substantial dividends to our stockholders. It is anticipated that cash and total corporate investments as of August 31, 2015, along with projected operating cash flows, will support our normal business operations, capital purchases, share repurchases, and dividend payments for the foreseeable future.

For further analysis of our results of operations for the first quarter and our financial position as of August 31, 2015, refer to the analysis and discussion in the “Results of Operations” and “Liquidity and Capital Resources” sections of this Form 10-Q.

Outlook

Our outlook for fiscal 2016 is based upon current market, economic, and interest rate conditions continuing with no significant changes. Our guidance is as follows:

	Low	—	High
Payroll service revenue	4%	—	5%
HRS revenue	10%	—	13%
Total service revenue	7%	—	8%
Net income ⁽¹⁾	8%	—	9%

⁽¹⁾Net income guidance excludes the impact of a net tax benefit related to prior tax years that was recorded in the first quarter.

We anticipate our effective income tax rate will be approximately 36.0% excluding the net tax benefit related to prior tax years that was recorded in the first quarter. Our guidance for fiscal 2016 for interest on funds held for clients and operating income, net of certain items, as a percentage of service revenue are unchanged from the guidance we previously provided.

Purchases of property and equipment for fiscal 2016 are expected to be in the range of \$110 million to \$120 million. This will include costs for internally developed software, as we continue to invest in our product development. Fiscal 2016 depreciation expense is projected to be in the range of \$95 million to \$105 million, and we project amortization of intangible assets for fiscal 2016 to be in the range of \$10 million to \$15 million.

RESULTS OF OPERATIONS

Summary of Results of Operations:

\$ in millions	For the three months ended August 31,		Change
	2015	2014	
Revenue:			
Payroll service revenue	\$ 432.5	\$ 412.8	5 %
HRS revenue	279.7	243.8	15 %
Total service revenue	712.2	656.6	8 %
Interest on funds held for clients	10.8	10.2	6 %
Total revenue	723.0	666.8	8 %
Combined operating and SG&A expenses	426.9	399.3	7 %
Operating income	296.1	267.5	11 %
Investment income, net	1.4	1.4	5 %
Income before income taxes	297.5	268.9	11 %
Income taxes	88.4	97.6	(9)%
Effective income tax rate	29.7 %	36.3 %	
Net income	\$ 209.1	\$ 171.3	22 %
Diluted earnings per share	\$ 0.58	\$ 0.47	23 %

We invest in highly liquid, investment-grade fixed income securities and do not utilize derivative instruments to manage interest rate risk. As of August 31, 2015, we had no exposure to high-risk or illiquid investments. Details regarding our combined funds held for clients and corporate investment portfolios are as follows:

\$ in millions	For the three months ended August 31,		Change
	2015	2014	
Average investment balances:			
Funds held for clients	\$ 3,819.6	\$ 3,745.0	2%
Corporate investments	1,014.9	968.0	5%
Total	\$ 4,834.5	\$ 4,713.0	3%
Average interest rates earned (exclusive of net realized gains):			
Funds held for clients	1.1 %	1.1 %	
Corporate investments	0.7 %	0.7 %	
Combined funds held for clients and corporate investments	1.0 %	1.0 %	
Total net realized gains	\$ —	\$ 0.1	

As of: \$ in millions	August 31, 2015	May 31, 2015
Net unrealized gain on available-for-sale securities ⁽¹⁾	\$ 23.5	\$ 13.6
Federal Funds rate ⁽²⁾	0.25 %	0.25 %
Total fair value of available-for-sale securities	\$ 2,902.3	\$ 3,595.6
Weighted-average duration of available-for-sale securities in years ⁽³⁾	3.3	3.2
Weighted-average yield-to-maturity of available-for-sale securities ⁽³⁾	1.7 %	1.6 %

(1) The net unrealized gain on our investment portfolio was approximately \$25.8 million as of September 23, 2015.

(2) The Federal Funds rate was a range of 0% to 0.25% as of August 31, 2015 and May 31, 2015.

(3) These items exclude the impact of VRDNs as they are tied to short-term interest rates.

Payroll service revenue: Payroll service revenue was \$432.5 million for the first quarter, reflecting an increase of 5%, compared to the same period last year. Payroll service revenue growth was attributable to increases in revenue per check and client base. Growth in revenue per check was the result of price increases, net of discounts. In addition, payroll service revenue benefited from one additional processing day compared to the same period last year.

Human Resource Services revenue: HRS revenue was \$279.7 million for the first quarter, reflecting an increase of 15% compared to the same period last year. Our Paychex HR Services, which includes our ASO and PEO, is our largest HRS revenue stream. These services experienced strong growth in clients and client worksite employees served. Insurance services revenue benefited from continued growth of our full-service product assisting clients with health care reform, an increase in health and benefits applicants, and higher average premiums and clients in our workers' compensation insurance product. Our online HR administration services contributed to growth through increases in our client base for our SaaS solutions. Retirement services revenue increased as a result of growth in the number of plans served, and also benefited from an increase in asset fee revenue earned on the value of participants' funds.

Total service revenue: Total service revenue was \$712.2 million for the first quarter, reflecting an increase of 8% compared to the same period last year. The increase was attributable to the items previously discussed.

Interest on funds held for clients: Interest on funds held for clients was \$10.8 million for the first quarter, reflecting an increase of 6% compared to the same period last year. The fluctuation was impacted by an increase in average investment balances of 2%, primarily attributable to growth in client base.

Combined operating and SG&A expenses: The following table summarizes total combined operating and selling, general and administrative ("SG&A") expenses:

\$ in millions	For the three months ended August 31,		Change
	2015	2014	
Compensation-related expenses	\$ 274.6	\$ 256.2	7%
Depreciation and amortization	27.0	26.5	2%
Other expenses	125.3	116.6	7%
Total operating and SG&A expenses	\$ 426.9	\$ 399.3	7%

Total expenses were \$426.9 million for the first quarter, reflecting an increase of 7% compared to the same period last year.

Compensation-related expenses increased 7% for the first quarter due to higher wages and performance-based compensation costs. As of both August 31, 2015 and 2014 we had approximately 12,900 employees.

Depreciation expense is primarily related to buildings, furniture and fixtures, data processing equipment, and software. Amortization of intangible assets is primarily related to client list acquisitions, which are amortized using either straight-line or accelerated methods.

Other expenses include items such as non-capital equipment, delivery, forms and supplies, communications, travel and entertainment, professional services, and other costs incurred to support our business. Strong growth in our PEO also contributed to the growth in total expenses for the first quarter.

Operating income: Operating income was \$296.1 million for the first quarter, reflecting an increase of 11%, compared with the same period last year. The changes in operating income were attributable to the factors previously discussed.

Operating income, net of certain items, is summarized as follows:

\$ in millions	For the three months ended August 31,		
	2015	2014	Change
Operating income	\$ 296.1	\$ 267.5	11%
Excluding: Interest on funds held for clients	(10.8)	(10.2)	6%
Operating income, net of certain items	\$ 285.3	\$ 257.3	11%
Operating income, net of certain items as a percent of total service revenue	40%	39%	

Operating income, net of certain items, is a non-GAAP financial measure. Refer to the previous discussion of operating income, net of certain items, in the “Non-GAAP Financial Measure” section of this Form 10-Q.

Investment income, net: Investment income, net, primarily represents earnings from our cash and cash equivalents and investments in available-for-sale securities. Investment income does not include interest on funds held for clients, which is included in total revenue. Investment income, net, was \$1.4 million for the first quarter, reflecting an increase of 5% compared to the same period last year. This increase was primarily the result of higher average investment balances. The growth rate for average investment balances was tempered by an increase in the shareholder dividend and stock repurchases.

Income taxes: Our effective income tax rate was 29.7% for the first quarter, compared to 36.3% for the respective prior year period. The decrease in the effective income tax rate is related primarily to a net tax benefit that was recorded for income derived in prior tax years from customer facing-software we produced. During the first quarter, we engaged tax specialists to assess the qualification of such software for the federal “Qualified Production Activities Deduction.” Based on this assessment, we concluded that certain of our software offerings qualified for this tax deduction in prior tax years and, therefore, we recorded the tax benefits and related tax reserves as a discrete item in the first quarter. Excluding this net tax benefit, the effective income tax rate would have been approximately 36.0% for the first quarter.

Net income and earnings per share: Net income was \$209.1 million for the first quarter, reflecting an increase of 22% compared to the same period last year. Diluted earnings per share was \$0.58 per share for the first quarter, reflecting an increase of 23% compared to the same period last year. These fluctuations were attributable to the factors previously discussed.

LIQUIDITY AND CAPITAL RESOURCES

Our financial position as of August 31, 2015 remained strong with cash and total corporate investments of \$953.9 million and no debt. We believe that our investments as of August 31, 2015 were not other-than-temporarily impaired, nor has any event occurred subsequent to that date to indicate any other-than-temporary impairment. It is anticipated that cash and total corporate investments as of August 31, 2015, along with projected operating cash flows, will support our normal business operations, capital purchases, share repurchases, and dividend payments for the foreseeable future.

Commitments and Contingencies

Lines of credit: As of August 31, 2015, we had unused borrowing capacity available under four uncommitted, secured, short-term lines of credit at market rates of interest with financial institutions as follows:

Financial institution	Amount available	Expiration date
JP Morgan Chase Bank, N.A.	\$350 million	February 28, 2016
Bank of America, N.A.	\$250 million	February 28, 2016
PNC Bank, National Association	\$150 million	February 28, 2016
Wells Fargo Bank, National Association	\$150 million	February 28, 2016

The primary uses of these lines of credit would be to meet short-term funding requirements related to deposit account overdrafts and client fund obligations arising from electronic payment transactions on behalf of our clients in the ordinary course of business, if necessary. No amounts were outstanding under these lines of credit as of, or during the three months ended August 31, 2015.

Certain of the financial institutions are also parties to our credit facility and irrevocable standby letters of credit, which are discussed next.

Credit facility: On August 5, 2015, we entered into a committed, unsecured, five-year syndicated credit facility, expiring on August 5, 2020. Under this credit facility, Paychex of New York LLC (the “Borrower”) may, subject to certain restrictions, borrow up to \$1.0 billion to meet short-term funding requirements. The obligations under this facility have been guaranteed by us and certain of our subsidiaries. The outstanding obligations under this credit facility will bear interest at competitive rates based on options provided to the Borrower. Upon expiration of the commitment in August 2020, any borrowings outstanding will mature and be payable on such date. This agreement supersedes the \$750 million credit facility set to expire on June 21, 2018, which was terminated as part of the new agreement.

There were no amounts outstanding under this credit facility as of August 31, 2015. During the three months ended August 31, 2015, the Company borrowed against this facility, for one day, as follows:

<u>\$ in millions</u>		<u>Amount borrowed</u>	<u>Interest rate</u>
<u>Fiscal quarter</u>			
First quarter	\$	200.0	3.25%

Certain lenders under the new credit facility, and their respective affiliates, have performed, and may in the future perform for us and our subsidiaries, various commercial banking, investment banking, underwriting, and other financial advisory services, for which they have received, and will continue to receive in the future, customary fees and expenses.

Letters of credit: As of August 31, 2015, we had irrevocable standby letters of credit available totaling \$43.0 million, required to secure commitments for certain insurance policies. The letters of credit expire at various dates between December 2015 and July 2016. Upon draw down of funds, the letters of credit become collateralized by securities held in our investment portfolios. No amounts were outstanding on these letters of credit as of, or during the three months ended August 31, 2015.

Other commitments: We enter into various purchase commitments with vendors in the ordinary course of business. We had outstanding commitments to purchase approximately \$11.5 million of capital assets as of August 31, 2015.

In the normal course of business, we make representations and warranties that guarantee the performance of services under service arrangements with clients. Historically, there have been no material losses related to such guarantees. In addition, we have entered into indemnification agreements with our officers and directors, which require us to defend and, if necessary, indemnify these individuals for certain pending or future legal claims as they relate to their services provided to us.

We currently self-insure the deductible portion of various insured exposures under certain employee benefit plans. Our estimated loss exposure under these insurance arrangements is recorded in other current liabilities on our Consolidated Balance Sheets. Historically, the amounts accrued have not been material and are not material as of August 31, 2015. We also maintain insurance coverage in addition to our purchased primary insurance policies for gap coverage for employment practices liability, errors and omissions, warranty liability, theft and embezzlement, cyber threats, and acts of terrorism, and capacity for deductibles and self-insured retentions through our captive insurance company.

Off-Balance Sheet Arrangements

As part of our ongoing business, we do not participate in transactions with unconsolidated entities such as special purpose entities or structured finance entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other limited purposes. We do maintain investments as a limited partner in low-income housing projects that are not considered part of our ongoing operations. These investments are accounted for under the equity method of accounting and represented less than 1% of our total assets as of August 31, 2015.

Operating Cash Flow Activities

<u>In millions</u>	<u>For the three months ended</u>	
	<u>August 31,</u>	
	<u>2015</u>	<u>2014</u>
Net income	\$ 209.1	\$ 171.3
Non-cash adjustments to net income	69.7	63.0
Cash provided by changes in operating assets and liabilities	(0.5)	28.8
Net cash provided by operating activities	\$ 278.3	\$ 263.1

The increase in our operating cash flows for the three months, compared to the same period last year, was primarily a result of higher net income partially offset by fluctuations in operating assets and liabilities. The fluctuations in our operating assets and liabilities were primarily related to the timing of collections from clients and payments for compensation, PEO payroll, and income taxes.

Investing Cash Flow Activities

In millions	For the three months ended August 31,	
	2015	2014
Net change in funds held for clients and corporate investment activities	\$ 784.6	\$ 412.8
Purchases of property and equipment	(21.2)	(24.9)
Acquisition of businesses, net of cash acquired	—	(27.5)
Purchases of other assets	(3.5)	(1.5)
Net cash provided by investing activities	\$ 759.9	\$ 358.9

Funds held for clients and corporate investments: Funds held for clients consist of short-term funds and available-for-sale securities. Corporate investments are primarily comprised of available-for-sale securities. The portfolio of funds held for clients and corporate investments is detailed in Note D of the Notes to Consolidated Financial Statements.

The fluctuations in the net change in funds held for clients and corporate investment activities for the three months and the corresponding prior year period reflect net cash inflows related to the sale of investments to fund client fund obligation remittances. The increase in the net cash inflows for the three months was primarily due to timing of remittance of client obligations as discussed below.

In general, fluctuations in net funds held for clients and corporate investment activities primarily relate to timing of purchases, sales, or maturities of investments. The amount of funds held for clients will also vary based upon the timing of collecting client funds, and the related remittance of funds to applicable tax or regulatory agencies for payroll tax administration services and to employees of clients utilizing employee payment services. Additional discussion of interest rates and related risks is included in the “Market Risk Factors” section of this Form 10-Q.

Purchases of long-lived assets: To support our continued client and ancillary product growth, we made purchases of data processing equipment and software, and we upgraded various operating facilities. Acquisitions of businesses, net of cash acquired, reflect an immaterial business acquisition during the respective prior period. Purchases of other assets relates primarily to client list acquisitions.

Financing Cash Flow Activities

In millions, except per share amounts	For the three months ended August 31,	
	2015	2014
Net change in client fund obligations	\$ (533.3)	\$ (137.1)
Dividends paid	(151.9)	(138.3)
Repurchases of common stock	(62.9)	(37.5)
Equity activity related to stock-based awards	(4.2)	1.0
Net cash provided by financing activities	\$ (752.3)	\$ (311.9)
Cash dividends per common share	\$ 0.42	\$ 0.38

Net change in client fund obligations: The client fund obligations liability will vary based on the timing of collecting client funds and the related required remittance of funds to applicable tax or regulatory agencies for payroll tax administration services and to employees of clients utilizing employee payment services. Collections from clients are typically remitted from one to 30 days after receipt, with some items extending to 90 days.

The cash outflows related to the net change in client fund obligations for the three months and the corresponding period of fiscal 2015 were the result of higher remittances of employee tax withholdings than collections. This is typical for this period due to a reduction in tax collections due to FICA limits being reached. The higher cash outflow for the three months compared to the same period last fiscal year was due primarily due to client base growth and a timing impact. May 31, 2015 was a Sunday, whereas August 31, 2015 was a Monday. Mondays are not significant collection days, but additional cash outflows occurred to settle ReadyChex obligations. There was no timing impact on the prior year first quarter.

Dividends paid: In July 2015, the quarterly dividend to shareholders was increased 11% to \$0.42 per share from \$0.38 per share. The increase in dividend payments for the three months compared to the corresponding period last year is due to this increase in dividend, offset somewhat by the impact of fewer average shares outstanding as a result of repurchases of our common stock. The payment of future dividends is dependent on our future earnings and cash flow and is subject to the discretion of our Board of Directors (the “Board”).

Repurchases of common stock: In May 2014, the Board authorized the repurchase of up to \$350 million of our common stock, with the authorization expiring May 31, 2017. During the three months, we repurchased 1.3 million shares for \$62.9 million compared to 0.9 million shares for \$37.5 million during the respective prior year period.

Equity activity related to stock-based awards: Equity activity related to stock-based awards was a net cash outflow for the three months primarily as a result of an increase in shares withheld for taxes and retired related to restricted stock awards and restricted stock units, and slightly lower proceeds from the exercise of stock options for the three months compared to the corresponding period last year. For both the three months and for the corresponding period last year, 0.2 million options were exercised.

MARKET RISK FACTORS

Changes in interest rates and interest rate risk: Funds held for clients are comprised of short-term funds and available-for-sale securities. Corporate investments are primarily comprised of available-for-sale securities. As a result of our operating and investing activities, we are exposed to changes in interest rates that may materially affect our results of operations and financial position. Changes in interest rates will impact the earnings potential of future investments and will cause fluctuations in the fair value of our longer-term available-for-sale securities. We follow an investment strategy of protecting principal and optimizing liquidity. A substantial portion of our portfolio is invested in high credit quality securities with a AA rating or higher, and A-1/P-1 ratings on short-term securities. We invest predominantly in municipal bonds – general obligation bonds; pre-refunded bonds, which are secured by a U.S. government escrow; and essential services revenue bonds – as well as U.S. government agency securities and corporate bonds. We limit the amounts that can be invested in any single issuer and invest primarily in short- to intermediate-term instruments whose fair value is less sensitive to interest rate changes. We manage the available-for-sale securities to a benchmark duration of two and one-half to three and three-quarters years.

During the three months, our primary short-term investment vehicles were bank demand deposit accounts, high-quality commercial paper, and VRDNs. We have no exposure to high-risk or illiquid investments such as auction rate securities, sub-prime mortgage securities, asset-backed securities or asset-backed commercial paper, collateralized debt obligations, enhanced cash or cash plus mutual funds, or structured investment vehicles (SIVs). We have insignificant exposure to European investments. We have not and do not utilize derivative financial instruments to manage our interest rate risk.

During the three months, the average interest rate earned on our combined funds held for clients and corporate investment portfolios was 1.0%, consistent with the respective prior year period. When interest rates are rising, the full impact of higher interest rates will not immediately be reflected in net income due to the interaction of short- and long-term interest rate changes. During a rising interest rate environment, the increases in interest rates increase earnings from our short-term investments, and over time increase earnings from our longer-term available-for-sale securities. Earnings from the available-for-sale-securities, which as of August 31, 2015 had an average duration of 3.3 years, would not reflect increases in interest rates until the investments are sold or mature and the proceeds are reinvested at higher rates.

The amortized cost and fair value of available-for-sale securities that had stated maturities as of August 31, 2015 are shown below by contractual maturity. Expected maturities can differ from contractual maturities because borrowers may have the right to prepay obligations without prepayment penalties.

In millions	August 31, 2015	
	Amortized cost	Fair value
Maturity date:		
Due in one year or less	\$ 369.7	\$ 372.5
Due after one year through three years	697.9	705.8
Due after three years through five years	851.3	858.7
Due after five years	959.9	965.3
Total	<u>\$ 2,878.8</u>	<u>\$ 2,902.3</u>

VRDNs are primarily categorized as due after five years in the table above, as the contractual maturities on these securities are typically 20 to 30 years. Although these securities are issued as long-term securities, they are priced and traded as short-term instruments because of the liquidity provided through the tender feature.

The Federal Funds rate has remained at a range of zero to 0.25% since December 2008.

Calculating the future effects of changing interest rates involves many factors. These factors include, but are not limited to:

- daily interest rate changes;
- seasonal variations in investment balances;
- actual duration of short-term and available-for-sale securities;
- the proportion of taxable and tax-exempt investments;
- changes in tax-exempt municipal rates versus taxable investment rates, which are not synchronized or simultaneous; and
- financial market volatility and the resulting effect on benchmark and other indexing interest rates.

Subject to these factors and under normal financial market environment, a 25-basis-point change in taxable interest rates generally affects our tax-exempt interest rates by approximately 17 basis points. Under normal financial market conditions, the impact to earnings from a 25-basis-point change in short-term interest rates would be approximately \$3.5 million to \$4.0 million, after taxes, for the next twelve-month period. Such a basis point change may or may not be tied to changes in the Federal Funds rate.

Our total investment portfolio (funds held for clients and corporate investments) is expected to average approximately \$5.2 billion for fiscal 2016. Our anticipated allocation is approximately 45% invested in short-term and VRDNs with an average duration of less than 30 days and 55% invested in available-for-sale securities with an average duration of two and one-half to three and three-quarters years.

The combined funds held for clients and corporate available-for-sale securities reflected a net unrealized gain of \$23.5 million as of August 31, 2015, compared with a net unrealized gain of \$13.6 million as of May 31, 2015. During the three months, the net unrealized gain on our investment portfolios ranged from \$3.7 million to \$28.8 million. These fluctuations were driven by changes in market rates of interest. Our investment portfolios reflected a net unrealized gain of approximately \$25.8 million as of September 23, 2015.

As of August 31, 2015 and May 31, 2015, we had \$2.9 billion and \$3.6 billion, respectively, invested in available-for-sale securities at fair value. The weighted-average yield-to-maturity was 1.7% as of August 31, 2015 and 1.6% as of May 31, 2015. The weighted-average yield-to-maturity excludes available-for-sale securities tied to short-term interest rates, such as VRDNs. Assuming a hypothetical increase in longer-term interest rates of 25 basis points, the resulting potential decrease in fair value for our portfolio of available-for-sale securities held as of August 31, 2015 would be in the range of \$20.0 million to \$25.0 million. Conversely, a corresponding decrease in interest rates would result in a comparable increase in fair value. This hypothetical increase or decrease in the fair value of the portfolio would be recorded as an adjustment to the portfolio's recorded value, with an offsetting amount recorded in stockholders' equity. These fluctuations in fair value would have no related or immediate impact on the results of operations, unless any declines in fair value were considered to be other-than-temporary and an impairment loss recognized.

Credit Risk: We are exposed to credit risk in connection with these investments through the possible inability of the borrowers to meet the terms of their bonds. We regularly review our investment portfolios to determine if any investment is other-than-temporarily impaired due to changes in credit risk or other potential valuation concerns. We believe that the investments we held as of August 31, 2015 were not other-than-temporarily impaired. While \$555.0 million of our available-for-sale securities had fair values that were below amortized cost, we believe that it is probable that the principal and interest will be collected in accordance with the contractual terms, and that the unrealized losses totaling \$3.3 million were due to changes in interest rates and were not due to increased credit risk or other valuation concerns. A substantial portion of the securities in an unrealized loss position as of August 31, 2015 and May 31, 2015 held an A rating or better. We do not intend to sell these investments until the recovery of their amortized cost basis or maturity, and further believe that it is not more-likely-than-not that we will be required to sell these investments prior to that time. Our assessment that an investment is not other-than-temporarily impaired could change in the future due to new developments or changes in our strategies or assumptions related to any particular investment.

CRITICAL ACCOUNTING POLICIES

Our critical accounting policies are described in Item 7 of our Form 10-K for fiscal 2015, filed with the SEC on July 21, 2015. On an ongoing basis, we evaluate the critical accounting policies used to prepare our consolidated financial statements, including, but not limited to, those related to:

- revenue recognition;
- PEO insurance services;
- goodwill and other intangible assets;
- stock-based compensation costs; and
- income taxes.

There have been no material changes in these aforementioned critical accounting policies.

NEW ACCOUNTING PRONOUNCEMENTS

Recently adopted accounting pronouncements: Refer to Note A of the Notes to Consolidated Financial Statements for a discussion of recently issued accounting pronouncements.

Recently issued accounting pronouncements: Refer to Note A of the Notes to Consolidated Financial Statements for a discussion of recently issued accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosure of Market Risk

The information called for by this item is provided under the caption "Market Risk Factors" under Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations and is incorporated herein by reference.

Item 4. Controls and Procedures

Disclosure Controls and Procedures: Disclosure controls and procedures are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), such as this report, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures: As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on such evaluation, the Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that as of August 31, 2015, the end of the period covered by this report, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control over Financial Reporting: The Company also carried out an evaluation of the internal controls over financial reporting to determine whether any change occurred during the quarter ended August 31, 2015. Based on such evaluation, there has been no change in our internal control over financial reporting that occurred during the most recently completed fiscal quarter ended August 31, 2015, that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The following table provides information relating to our repurchase of common stock during the three months ended August 31, 2015:

	Total number of shares purchased	Average price paid per share	Approximate dollar value of shares that may yet be purchased under the program
June 1, 2015 - June 30, 2015	—	\$ —	\$ 167,604,108
July 1, 2015 - July 31, 2015	300,000	\$ 47.61	\$ 153,320,706
August 1, 2015 - August 31, 2015	1,012,815	\$ 47.99	\$ 104,716,067
Total for the period	1,312,815	\$ 47.90	\$ 104,716,067

In May 2014, our Board approved a program to repurchase up to \$350 million of our common stock, with authorization expiring on May 31, 2017. The stock repurchase program may be suspended or discontinued by management at any time. All shares of stock repurchased during the three months ended August 31, 2015 were purchased pursuant to the program and were retired.

Item 6. Exhibits

Exhibits required to be filed by Item 601 of Regulation S-K.

For the exhibits that are filed herewith or incorporated herein by reference, see the Index to Exhibits located on page 28 of this report. The Index to Exhibits is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**CERTIFICATION PURSUANT TO
SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002**

I, MARTIN MUCCI, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Paychex, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002**

I, EFRAIN RIVERA, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Paychex, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
